

CHICAGO TREKS TO LAND O' LAKES FOR HOLIDAY FUN

Capacity Reservations Reported by Resorts In Region

Chicago treks to the land o' lakes today. Early Wednesday the seemingly endless procession of pleasure-seekers started, and the heaviest traffic of the year is expected the Fourth. Notwithstanding the prediction of the weatherman that rain would dampen the holiday festivities, the Fourth of July crowd here is expected to be the greatest in history. Two days ago many resorts, hotels and rooming houses had reported reservations to capacity, and before night Wednesday almost any kind of sleeping quarters were at a premium. Food supply stores, bakers and novelty vendors have their places well stocked in anticipation of their greatest Fourth of July trade.

Druce Lake Is Vacation Land For Girl Scouts

Summer outings at Association House Camp on Druce Lake will be enjoyed by two groups of Girl Scouts of America from Chicago during July. The first party of 100 Girl Scouts left for the camp Monday, July 1, making the trip from Chicago to Waukegan in a two-car special train over the North Shore Line. They were met at Edison Court station, Waukegan, by special Marigold motor coaches which operated direct to Druce Lake. The Girl Scouts will spend two weeks at the camp, returning to Chicago, Saturday, July 16. The second group will leave Chicago on Monday, July 15, in a North Shore Line special train, proceeding from Waukegan to Druce Lake by motor coach. They will also spend two weeks at the camp, where they will have an opportunity to make practical application of scouting and campcraft principles. They will return to Chicago by combined coach and North Shore Line service on Saturday, July 27.

Farmers Urged to Clean Up County Highways

Following an appeal by County Farm Advisor H. C. Glickerson to the people in Lake county to clean up the roadsides in preparation for the holiday invasion of pleasure seekers, farmers this week have been busy ridding the highways of accumulated rubbish and other unsightly refuse. The cleanup campaign, which is being sponsored by the Lake County Farm Bureau, is aimed at the roadsides which have accumulated rubbish thrown away by excursionists and by the farmers themselves. If the Lake county roadsides are littered with trash, it spoils the impression made on the minds of those who come to the county seeking summer recreation, the farm advisor stated.

ANTIOCH NEWS A DAY EARLY THIS WEEK

The Antioch News is issued on Wednesday this week so that the force may enjoy a full holiday tomorrow, Independence day.

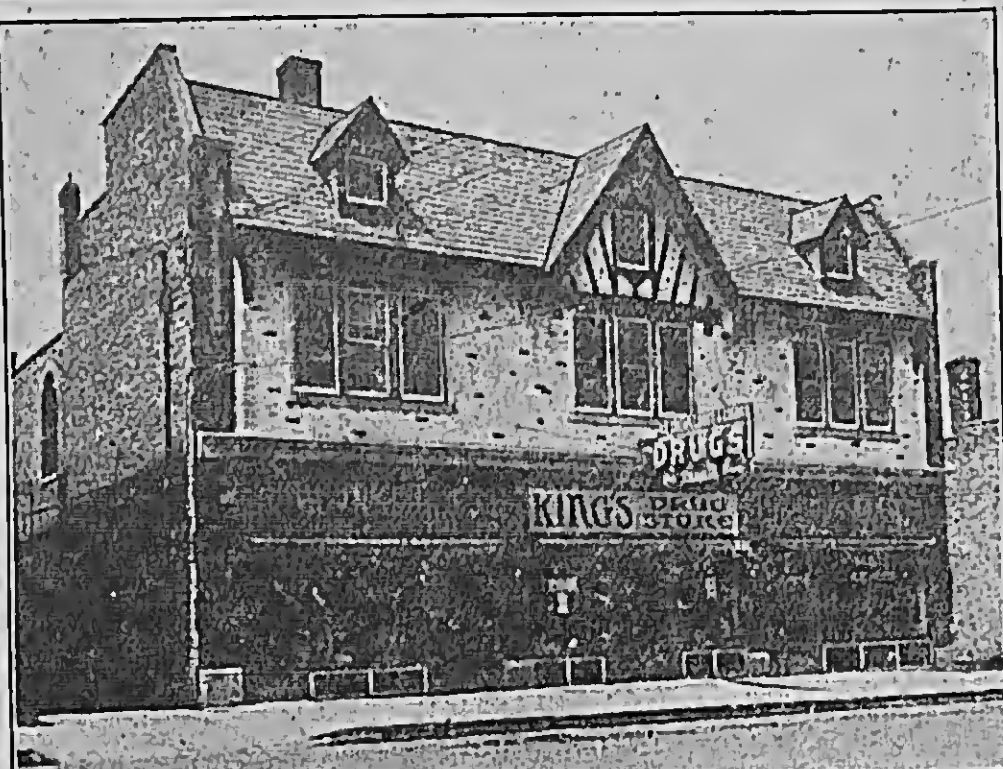

Next week the News adds to its staff an assistant editor and feature and department editor, Miss Agnes Blomberg, a Wisconsin young woman of sterling worth and more than ordinary ability in the journalistic field. She was recently graduated from college with highest honors.

Miss Blomberg succeeds Miss V. Ladel Boden, who has been in the employ of the News for the last several months.

Onions for Colds

The physician who recommends onions for a cold probably refers to their prophylactic properties in protecting the wearer of an onion breath from too intimate exposure.—Louisville Courier Journal.

Antioch's First Flood-Lighted Building

"Let there be light," said Frank R. King, former mayor of Antioch, chief exponent of a "white way," and proprietor of the drug store unique. King has repented, reiterated, yea, he has sung the song of light for years—but to no avail toward bringing to realization any dream of an ornamental lighting system for the town. Now—King's drug store has its own private system of flood-lights to illuminate the building. Two lights of 20,000 candle-power across the street on the Zimmerman building do the work very effectively. As pioneers in this kind of lighting effect, King wins recognition and front page space in the Antioch News. Look at the King building tonight—it's beautiful.

BARNEY ROSS AGAIN HEADLINES BOXING SHOW AT PALACE

Harry Leggett His Foe In Windup Bout Friday Night

Again Barney Ross, popular Palace lightweight and international champion, will be featured in the windup event at the Palace Friday night when he meets Harry Leggett, Edmille Health Club boxer, clever milner who carries a sleep-producing wallon in either mit.

Offered in support of the super-windup event, Promoter Dick Mack and Matchmaker Heine Wallenwein have arranged an all-star card of six other bouts that are sure to prove popular with the fans. Red Schneider, Waukegan, and Howard Craft, Grayslake, are billed to open the show. This ought to make a good curtain-raiser. Leo Donnelly, 122-pounder from Davenport, Iowa, will mix things with Don Conn, Waukegan, in the second bout.

Jokinen in Return Match

Of great interest to fans will be the return match between Ernie Jokinen, Waukegan, and Buddy Beyers, Twin Lakes. Ernie lost a close decision to the Twin Lakes miller last Friday night.

Others on the card are Leo Leggett vs. Harry Garbell, and Ray Neumann, St. Paul, will trade punches with Herbie Dorex, Chicago. The color event will be something worth seeing when George Taylor, Waukegan, climbs through the ropes to do battle with Tommy Williams, Tribune golden glove winner.

Big Crowd Sees Thrillers

The largest crowd of the season saw Barney Ross shade Tommy Williams, Tribune golden glove winner, in the feature bout at the Palace last Friday night. Ross earned the decision by tearing loose in the final round after points had been about even in the first two sessions. This bout was sixth on the card.

Battling Harry Garbell lost to Ray Neumann in three rounds. Garbell was on the canvas for a seven count in the final session, the St. Paul battler winning on account of the knockdown.

The Jokinen-Beyers bout was a hard scrap for Jokinen to lose, as there appeared to be very little difference between the fighters. The

DIPPING INTO SCIENCE

The Moon Minus Atmosphere

Atmosphere may be termed a gaseous envelope made up of myriads of atoms and molecules of gases. Unless a body is sufficiently large that its gravitation holds these atoms to it, it is void of atmosphere. The earth is sufficiently large, but smaller Mars has less dense atmosphere, while the very small moon has little at all.

(© 1929, Western Newspaper Union.)

Smashes Two-Mile Record

Jimmy Reid, captain of the Harvard university track team, won the two-mile championship at the I. C. A. A. A. games at Philadelphia. Reid's time was 9:22, eclipsing 2.5 of a second off the record made by Ivan C. Dresser of Cornell in 1919.

WAUKEGAN MAN IS SUICIDE, JURY DECIDES

A clear case of suicide was revealed to the corner's jury in the request into the death of Alce: Benson, 318 Bolvidore street, Waukegan, who cut open his throat with a razor Monday morning after a night made sleepless by exploding fireworks.

Mrs. Benson and her brother, David Anderson, testified that the dead man had been much distraught over the day-long noises. Mrs. Benson identified the razor found in the dead man's hand as one which he had purchased last Saturday.

crowd expected a knockout but the defense of each was too good to allow an opening for a hay-maker. The pair meets in a return match Friday night.

The real scrap of the evening was the grudge bout between Carl Ogron and Eddie Gorlow, Ogron winning the decision and both prizes. Gorlow hit the reser three three times in the final session, but staged a game fight and was coming up for more as the bell ended the fight.

Grover Cleveland Alexander won a close decision over Don Framer in three rounds.

Red Schneider lost a close decision to Leo Donnelly of Davenport, Iowa. George Sames, Antioch, might have won the decision over Oscar O'Hannon had the judges stopped to flip a coin. The bout was the only extra session affair of the evening, and was anybody's fight all the way.

REBEKAHS TO GIVE

LAWN SOCIABLE

The Lakeside Rebekah lodge, No. 82, have announced an ice cream sociable to be given next Wednesday night on the Sahlin lot, just south of the office of the Antioch News. The committee in charge is preparing to make the event one of enjoyment for all who attend. There will be plenty of ice cream and home-made cake.

LAKE ZURICH CASE SET FOR HEARING WEDNESDAY NOON

Judge Shurtleff Busy In Court—Hearing Is Delayed

Hearing of the Lake Zurich injunction proceedings is set for Wednesday noon before Judge Edward D. Shurtleff. A change of venue was granted after having been asked for by petitioners seeking the injunction on the grounds that the Waukegan jurist was acquainted with certain parties involved in the litigation and because of the printing of a supposed interview with Judge Edwards in a Lake county newspaper.

Denies Interview

Judge Edwards declared that he had granted no such interview in which his opinion was given as opposed to an injunction and he further stated that he was not particularly friendly with those involved in the suit.

He acceded to the wishes of the petitioner, however, and turned the case over to the court of Judge Shurtleff. The attorneys in the case will take the matter up with the Marengo jurist on Wednesday.

The injunction is being sought by 19 Lake Zurich cottage concession and subdivision owners to restrain Mayor August Froelich and Marguerite and W. E. Pearce of Lake Zurich from preventing the free and public use of the lakes.

The petitioners are claiming that the lake is navigable water and as such they are entitled to its use without interference on the part of the three named defendants.

Froelich and the other two claim the rights of the lake by a time-old deed which they say they possess and because of the fact that they been paying taxes on the lake bottom for some 23 years.

NEW SIZE OF CURRENCY SHOWS BUYING POWER

As the new paper money, about one-third smaller than the old size currency, is put in circulation starting July 1, the National Industrial Conference Board comments that the new size is proportionate to its buying power as compared with pre-war prices. Today's dollar has a purchasing power of about 63 cents on a 1913 basis, it is found.

"Coal continues at a considerably higher level than before the war," the Board reports, "while in contrast electricity for lighting purposes today costs less than before the war. Of all the main groups of expenditure entering into the wage earner's budget, clothing stands at the highest level as compared with pre-war conditions." The Board states, "Physicians' charges and recreation have risen to the highest point."

ROYAL NEIGHBOR MEETINGS

During the months of July and August the Royal Neighbors will hold but one meeting a month, same being the last meeting of the month.

Robert G. Sproul

Robert Gordon Sproul, thirty-eight years old, once a newsboy and for sometime comptroller and vice president of the University of California, was elected by the board of regents to succeed President W. W. Campbell.

Now You Can Go 40 Miles An Hour

New Speed Bill Is Signed By Gov. Emmerson—Effective July 1

Gov. Louis L. Emmerson has just affixed his signature to the bill of Senator Henry M. Dunlap, which as amended in the house of representatives increases the speed limit of automobiles of the pleasure type five miles an hour or at a limit of 40 miles. The bill as it passed the senate placed the limit at forty-five miles an hour, but five miles were taken from it in house committee. The law became effective Monday, July 1.

The bill was one of four on the subject introduced in the assembly. One by Representative A. O. Galvin set the limit at 45 miles originally and passed the house, but it was tabled to give way to the Dunlap bill after that measure got earlier action. Bills by Senator Richard R. Meets of Ashkum and Representative Rodols F. Cutler of Lewistown were introduced in the respective branches, each intended to remove all limit of speed.

A lot of responsibility is attached to the driver of the car in the bill, in that it is set out that no machine may be driven "at a speed greater than is reasonable and proper where life or injury is a question, or where traffic conditions require slower going." Also a limit of twelve miles an hour is set at curves where the vision of the driver is blocked for a distance where it would make it impossible to avoid a collision.

In closely built-up sections of incorporated towns the limit is set at 15 miles an hour; in residence sections twenty miles, and outside residence or business sections twenty-five miles an hour. Busses equipped with pneumatic tires may attain a speed of forty miles an hour on country highways, but those with hard rubber tires may not go faster than 20 miles an hour.

MOTHERS' CLUB WILL PICNIC AT DEEP LAKE

The Antioch Mothers' club will have an all-day picnic Tuesday, July 9, at the home of Mrs. Agnes Glenn at Deep Lake.

VILLAGE COUNCIL CONSIDERS WATER MAIN EXTENSION

Lake and Orchard Streets Not Adequately Served

Consideration of water main extensions for western Lake street and for the entire length of Orchard street occupied the attention of the village board of trustees at the regular meeting Tuesday night. With the building of the new Catholic church and parsonage on Lake street there will be need of the full size main to the village limits, it was pointed out, and also the fact that Orchard street residents had always been served through a very small water line was called at the attention of the councilmen. Trustees indicated that the assessment would be spread and that the work of installation would go forward without delay. W. F. Ziegler has been appointed to make the assessment spread for the Lake street improvement.

Bright Attending to House Numbering

Appointed to work out a house number plan, Prin. L. O. Bright is busy making a canvas of the town and affixing shiny new numerals on premises where the owners desire the particular style of number Mr. Bright fulfills his work the village board will take the matter in hand and purchase numbers for all places not supplied.

Pikeville Team Grabs

Another Victory; St. Anthony's Victim

After trailing for seven innings, the Pikeville baseball team rallied in the final innings of their game Sunday with St. Anthony's and won over the visitors, 11 to 8. The locals chased six counters across the plate in the eighth frame to clinch the game.

Next Sunday the Pikeville tossers take on the fast Hub Market outfit from Kenosha, the game to be played at Pikeville.

The Box Score:

Pikeville	AB	R	H	E
W. Britton, ss	4	1	2	0
Zuelsdorf, rf	5	0	0	0
Floyd, 3b	4	0	1	1
Shean, lf	4	1	1	0
H. Britton, p	4	1	1	0
Nelson, cf	4	2	2	0
Kennedy, 2b	4	1	1	0
Willett, 1b	3	3	1	0
Crittenden, c	3	1	2	0
Struck out by—Britton, 14; hits by Pikeville, 11.

Well Known Boxers And Other Athletes Train at Palace

Champions in the making may be seen at Antioch Palace, since the big amusement auditorium is to be used by leading professional and amateur athletes as training headquarters beginning Saturday of this week and every Saturday, Sunday and holiday thereafter. George "Jabber" Young, Chicago's most popular referee and training instructor, will be in charge. Lightweight champion Sammy Mandell, Dave Shada, Barney Ross and other well known boxers have indicated their intention to visit the Palace many times during the season.

HintsWhat Is Life Without
A Drink? Here Are
Hot Weather Thirst
Quenchers.

People are particular, that is some of them are, about their drinks, especially in hot weather. But no one can go far wrong on fruit beverages. Delicious, sparkling fruit punches served either with or between meals are pleasing to both grown-ups and kiddies. Not only delicious to the taste, but natural fruit juices will correct the mineral and vitamin deficiencies of modern diets.

Try These Hot Weather Drinks
Ginger Ale Lemonade

- 2-3 cup lemon juice
- 1 cup orange juice
- 1 1/4 cups syrup or 1 cup sugar
- 2 bottles ginger ale

Mix fruit juices and syrup or sugar. Add ginger ale just before serving.

Half and Half

- 3 oranges
- 3 lemons
- 2 pints water
- 2-3 cup syrup or 1 1/2 cup sugar

Mix ingredients. Chill and serve.

Fruit Punch

- 4 oranges
- 2 lemons
- 2 cups fruit juice (grape, loganberry, pineapple or cider)
- 2 cups water
- 1 cup syrup or 3-4 cup sugar

Add sugar or syrup to fruit juices and water. Chill and serve.

Grape Juice Punch

- 1 pint grape juice
- 2 lemons
- 1 orange
- 2-3 cup syrup or 1 1/2 cup sugar
- 2 pints water

Add syrup or sugar to fruit juices and water. Chill and serve.

Dinner Punch

- 1 cup crushed pineapple
- 4 cups orange juice
- 1/2 cup lemon juice
- 1 1/2 cups syrup or 1 1/2 cups sugar
- 1 cup water

Add syrup or sugar to fruit juices. Chill and serve. Grape juice or other fruit juice may be substituted for the pineapple.

Trevor Recipes

Beef Loaf

- 1 pound of round steak and 1 pound of cured ham ground fine
- 1 cup of bread crumbs
- 2 eggs
- 1 teaspoon mustard
- 1 cup milk
- 1/4 teaspoon salt
- Pepper to taste

Make in loaf and place in oiled baking dish, add 1/4 cup water, bake often. Can use 1 cup of tomatoes in place of milk if desired. Bake one hour.

French Mustard

- 2 tablespoons ground mustard
- 1/2 tablespoon sugar
- 1/2 teaspoon cayenne
- 1/4 teaspoon pepper
- 1/4 teaspoon flour
- 1/2 teaspoon butter
- Vinegar to cover

Cook till thick.

Beet Salad Dressing (Very Nice)

- 2 eggs beaten
- 3 teaspoons sugar
- 1/2 teaspoon mustard
- 5 tablespoons vinegar
- Butter size of hickory nut
- Boil until thick
- Season cooked and chopped beets with salt and pepper and add dressing.

Rhubarb Marmalade

- 3/4 pounds sugar to 1 pound rhubarb. To every 5 pounds of fruit add two lemons sliced thin, rind and all.
- 1 pound of raisins seeded and put through the food chopper. Boil the mixture slowly, until thick and clear. Put in hot jelly glasses, cover with paraffin.

White Layer Cake

- 1-3 cup sugar
- 1 cup milk
- Whites of three eggs
- 2 1/4 cups cake flour
- 3 teaspoons baking powder
- 1 teaspoon almond flavoring

Method—Cream sugar and shortening. Add flour and baking powder which have been sifted several times, add milk and flavoring. Fold in well beaten whites of eggs. Bake 35 minutes in two layers.

Market Place Idols

The idols of the market place are the most troublesome of all—these names which have entwined themselves around the understanding from the associations of words and names.

—Bacon.

Hope Is A Charming "Mimi"

Hope Hampton, who had won a high place in the film world before she ventured into the realm of music, surprised her public when she made her bow in grand opera with the Philadelphia Grand Opera Company in the lead role of "Manon." Nobody had ever thought of Hope as a singer, and some were skeptical when first announcements of her intentions were made public. Some of the critics took their seats at her premier, prepared to spend an unpleasant afternoon, but Hope fooled them and made them her friends, and glorifiers to a man, and

woman. Subsequent to her Manon appearance she undertook the difficult "Mimi" role in La Boheme, and in this part she won the plaudits of the critics, and the rare honor of comparison with Geraldine Farrar in that role. Hope has a rich lyric soprano voice, real beauty, and she has been well trained in the art of the drama, and the combination makes of her a rare artist on the operatic platform. The photo shows Hope Hampton costumed for the role of "Mimi" in La Boheme.

CORRECTION

The recipe for white layer cake, offered by Mrs. Radtke, as printed in last edition of the News called for "1 cup of shortening," but the amount should have been 2 tablespoons of shortening.

Miss Ada Comstock

Miss Ada Comstock, president of Radcliffe college, Massachusetts, is the only woman appointed by President Hoover as a member of the criminal law enforcement commission.

Novel Golf Outfit

LAKE VILLA FAMILY
STARTS ON TRIP
TO PACIFIC COAST

Mrs. Ellen Smith, Former Resident, Dies in Waukegan

Mr. and Mrs. Charles Hamlin and Gordon started Saturday on an auto trip to the Pacific coast, and will visit friends and places of interest on the way out and on the return trip. They expect to be gone about six weeks.

Miss Ruth Avery entertained several of her young friends at her home on Cedar Lake last Wednesday evening at a wienie roast.

Mr. and Mrs. A. M. Douglas attended the funeral of their aunt, Mrs. Ellen Smith in Waukegan, on Saturday. Mrs. Smith lived at Sand Lake for many years on the farm now owned by Andrew Wolf and has many friends who will regret to hear of her passing.

F. R. Sherwood spent Tuesday in Chicago.

George Walker, Portland, Oregon, who is a business manager for the Crown Flour mills of his home city, has been on a business trip to St. Louis, Chicago, Boston, New York, Baltimore, Buffalo, Detroit, and other Eastern cities in the interests of his firm, and stopped here for a visit with his brothers, William and John. John met his brother in Chicago Saturday.

Mrs. Frances Barnstable was pleasantly surprised at her home last Tuesday when a number of her

Picnic Time Is Here---
Try These For
The Lunch

Out-of-doors is calling: time to pack lunch kit and travel to some cool place of beauty for that picnic. Here are two recipes for foods of the substantial kind, guaranteed to cure any case of hunger. Prepare them for your next meal in the open.

Ham Mousse

- 1 tablespoon gelatine
- 1/4 cup cold water
- 1/2 cup hot water
- 2 cups chopped cold boiled ham
- 1 teaspoon mixed mustard
- 1/2 cup heavy cream
- Few grains cayenne

Soak gelatine in cold water and dissolve in hot water, and add to chopped or ground ham. When cold add mustard, cayenne, and cream, beaten until stiff. Turn into a mold and let harden in the refrigerator.

—and this recipe really came from Boston, so it's tagged

Boston Baked Beans

- 1 pound beans
- 2 teaspoons salt
- 1/2 teaspoon soda
- 1/2 teaspoon mustard
- 1/2 cup brown sugar
- 2 tablespoons white sugar
- 3 tablespoons molasses
- Salt pork

Soak beans overnight. Boil on top of stove until skins break when blown on—about 20 minutes. Add all above ingredients, placing a few small pieces of salt pork on top. Cover well with water. Bake until liquid becomes thick. This takes about 3 1/2 hours or longer. As liquid cooks away, add more water to keep beans moist.

Friends came in to spend the afternoon. Five hundred was played and the hostess served refreshments.

Fred Hamlin is remodeling his garage.

Mr. and Mrs. Chapman, Heloit, Wisconsin, spent a few days last week with Mr. and Mrs. Carl Seeger.

Mrs. Lottie Barnstable, Mrs. Anna Martin and Mrs. Laura Galtier were hostesses at a 500 party at Mrs. Barnstable's home Friday afternoon.

Mrs. J. M. Cannon was a guest of Mrs. Arthur Simpson of near Antioch last Thursday.

Everett Culver is confined to his bed by an attack of inflammatory rheumatism.

Mr. and Mrs. Oscar Douglas and children of Waukegan, Wisconsin, spent Saturday here with relatives.

Clayton Hamlin spent Sunday with his parents, Mr. and Mrs. Fred Hamlin.

Will the Ladies' Aid society members please remember to furnish two washed flour sacks for the meeting which will be with Mrs. Avery Wednesday afternoon, July 10?

Mr. and Mrs. George Mitchell and Helen Ann, also Mrs. Harriet Mitchell, all of Chicago, were guests of Mr. and Mrs. James Kerr Sunday and together they enjoyed an outing at Lake Geneva and other Wisconsin points. Mr. and Mrs. Mitchell left Saturday for an auto trip into Wisconsin and Northern Michigan.

William Walker has added an enclosed porch to the front of his house.

Mrs. B. J. Hooper made a trip to Rockford last Wednesday, returning the next day.

REARRANGING
THE FURNITURE

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

It is said of Thackeray, I believe, that when in his novels he once got his characters cast and definitely outlined, they seemed to get away from him, to determine their own behavior and procedure, and no matter how much he tried to manage them, they seemed to have wills of their own and a destiny to work out in spite of all the author's attempts to make them behave toward each other as he would have liked to have them.

I have sometimes felt that our furniture had something of these same human characteristics, and that when the various pieces were once settled in their respective corners of the house, no matter how determined we might be at times to bring about a rearrangement, the chairs and the tables and the settees, managed in a short time to drift back again each into its own familiar corner, as if they knew by a sort of wooden intuition the most appropriate place for each particular piece.

When Nancy and I first settled down to housekeeping we had few rooms to be furnished, and only the minimum amount of furniture to place in them. There was a sleeping room and a sitting room which seemed to me might at any time with advantage be completely changed about, the one becoming the other, but Nancy had her way as women are wont to do, and we proceeded to arrange our small bits of furniture. I was all the time thinking how much better it would be if the bedroom were used as a sitting room, and the sitting room as a bedroom.

We lived along for two or three months with things as they were, and then one evening Nancy was to be out for two or three hours, and I determined upon the rearrangement. Everything was to be changed, including the window curtains and the pictures on the wall. One of the fellows agreed to help me and we worked fast. Before Nancy got home the metamorphosis had been wrought. She was a little dazed when she first came in and looked around, and then together we looked the change over. I tried to think it was better, but it really wouldn't do at all. There wasn't a piece of furniture that wasn't lonesome for its old corner. The pieces stood out stiff and uncomfortable. There didn't seem to be an old friend anywhere. We couldn't stand the change a half-hour, so we set to work, before we even went to bed, and moved everything back into its old place.

Adaptability to new work and new conditions is too infrequently found in people. Like the furniture, we look awkward and out of place when we are moved to a new position. Having once found a corner or a convenient wall space into which we seem to fit, it is often the wisest plan to stay there and to make the best of our position. The main thing is to find the proper corner, and then to let the furniture stay where it is put.

PRUNING AND STAKING
TOMATOES IS FOUND
NOT TO HAVE PAIDExperiments Do Not Show
Evidences of Increased
Yields

Urbana, July 4 — Experiments do not show enough evidence of increased yields, superior quality of fruit or earliness of ripening to justify the staking and pruning of tomatoes, but many gardeners continue to support this practice, according to L. H. Strubinger, of the horticulture department, College of Agriculture, University of Illinois.

Is Expensive, Too

They attempt to justify the practice because of the continued cultivation that is made possible and that may be very advantageous during periods of dry weather. Supporting the vines also keeps the fruit off the ground so that less damage is caused by contact with moist earth during hot weather. Such practices also facilitate harvesting and preparing for market, since the fruits are more easily seen and need very little, if any, cleaning and wiping.

Pruning and staking tomatoes is expensive for material and labor involved. It also is very likely to open up the vines so that the fruits are exposed to a great deal of injury from sun-scalding.

Not Much Time Needed

Systems used vary all the way from the most highly specialized practice of pruning to a single stem so that growth is very limited to the practice of simply supporting the vine without limiting its growth. The former method is used commercially in some regions, while the latter is used by the home gardener in order to keep his fruit off the soil without cutting yield through reduction of the bearing area. Barrel hoops often are used for this latter purpose or cylinders made from wire fencing may be placed over the plants. This method has proved very satisfactory in many instances with a minimum of time and trouble spent in caring for the plants.

Hunger Knows No Reason

A hungry people listens not to reason, nor cares for justice, nor is heaf by any prayers — Seneca.

The Best We Can Do

WILMOT PEOPLE ENJOY FINE PROGRAM BY PRIMARY ROOM

Pirates Defeat Burlington; Mrs. Fred Sabin Dies

In spite of a torrential storm and two epidemics, measles and whooping cough, Miss Olive Hope and the pupils of the Primary room presented one of the clearest school programs at the gymnasium Thursday night ever presented in the village. Miss Hope was assisted by Mr. C. Nielson, vocal instructor from Kenosha who has been in charge of music in the school this past year.

The Wilmot Pirates defeated Burlington at the Burlington Park in a close game Sunday afternoon 10-7. The Fourth of July the Pirates play Johnsonburg at Johnsonburg and July 14, State Line will come to Wilmot for the decisive game in the series of three scheduled for these teams in the Inter County League lineup.

Mrs. Fred J. Sabin, well known Watertown resident, died at six o'clock Tuesday night, June 4, at the Sabin residence in Watertown, Wisconsin, following an illness of nearly a year's duration. Mrs. Sabin was born in 1866, and spent the early part of her life in Wilmot, Wisconsin. Her maiden name was Mary Hegeman and she was a daughter of the late John and Anna Hegeman. In 1886, at Wilmot, she married Fred Sabin and for 39 years she has been a resident of Watertown. Besides her husband she is survived by three children: Mrs. Will Richards, Milwaukee; Mrs. Roy Jones, Fort Atkinson; and Jean Sabin, Watertown. Two brothers, Louis Hegeman, Wilmot, and John Hegeman, Kenosha, survive. She was a member of the First Congregational church and of Watertown chapter No. 44, O. E. S., and of Violet Temple, Pythian Sisters. She was a woman who was highly esteemed by her large circle of acquaintances which she enjoyed in this community and her death is not only a loss to her family, but to her many friends. Private services were held on Friday afternoon at the Sabin residence. Interment was at the Oak Hill cemetery at Watertown. Rhoda Jedicke started the 4-H club sewing class at Randall at the home of Mrs. Lynne Sherman last week. Two new members have joined the club.

Mr. and Mrs. Harry McDougall motored to Chicago, Friday.

Anna May Shottliff has been ill with the measles this week.

Mr. and Mrs. Arthur Holtdorf attended the E. M. B. A. picnic for Wisconsin Gas and Electric company employees at Kenosha Thursday.

The wedding of Miss Agnes Dorothy Koehler, daughter of Mr. and Mrs. C. J. Koehler, Fox River, Wisconsin, and Paul H. Vignasky, son of Mrs. Rose Vignasky, 4710 Twenty-first avenue, Kenosha, was solemnized in the Evangelical Lutheran church at Wilmot at one o'clock Friday afternoon.

The couple left Friday evening on a motor trip through Wisconsin, Minnesota and Nebraska and after their return on July 15, they will make their home at 2611 Taylor avenue, Racine.

MILLBURN WOMAN PLANS TO VISIT SCOTLAND SOON

Rosenthal's Sell Home And Leave This Week For Minnesota

Mrs. Jessie Low leaves Tuesday for the east, later going to Scotland where she will visit her sisters and other relatives.

Mr. and Mrs. Rosenthal and Joe McDermott leave this week for their new home in Rochester, Minnesota, having sold their home here to Mr. and Mrs. Dehno, Wauconda.

Mr. and Mrs. Robert Bonner and sons attended a family reunion at the Beaumont home at Kansasville on Saturday and remained over Sunday. Ralph McGuire is slowly recovering after two weeks illness from pneumonia.

Charence and Andrew Mayer are spending the summer at Carl Anderson's.

Mr. and Mrs. James Armour, Hoffman, Minnesota, spent the past week with relatives and friends.

The lawn social given by the Adult Bible class at the home of Mr. and Mrs. Carl Anderson last Tuesday evening, was a wonderful success, with about 175 people in attendance.

Mrs. Dalrymple returned to her home in Lake Villa on Friday, after a week's visit at the home of Dr. H. E. Jamison.

The Christian Endeavor business meeting will be held at the home of Eric Anderson Friday evening.

CHORUS GIRLS CAN EAT AGAIN

Producers of musical comedies and the great entertainers of New York and Paris have united in announcing that the boyish figure is passé. No longer forced to starve themselves to a shadow, the girls of the Varsity Drag Chorus of "Good News", the famous Broadway production, thoroughly enjoy a wholesome snack after the show is over and before changing into street clothes. Freedom to satisfy their normal craving for sweets and other foods that supply energy is a big help to them in setting up a new standard of "pep" for Broadway to catch up to. Left to right: Katherine Gladstone, Peggy Bolton, Viola Hunter and Betty Tracey.

TREVOR HOMES OPEN TO MANY GUESTS DURING THE WEEK

Mr. and Mrs. George Higgins and daughter, Wilmot, called on the Patrick sisters Tuesday evening.

Robert and Ray Patrick, Salem, spent Tuesday with their grandparents, Mr. and Mrs. George Patrick.

Mr. and Mrs. Harry Lubeno were Kenosha visitors Wednesday.

The Misses Alyssa Derler, Ruth and Lois Pepper returned home Tuesday after attending the state convention of the 4-H clubs at Madison. The program was carried out in full and proved very interesting and instructive.

Mrs. George Patrick, Mrs. Fred Forster and Mrs. Harry Lubeno were Burlington callers Monday.

Mr. and Mrs. Robert Tait, Mrs. Margaret Burton, Kenosha, and Irving and Eric Swenson, Monmouth, Oregon, called at the George Patrick home Tuesday.

Mr. and Mrs. Joseph Smith spent the end of the week at the George Hallett home, Kenosha.

Mrs. Kate Van Osdel, son, William, Mr. and Mrs. Steven Kolanoy, and children, Chicago, spent the end of the week at the former's cottage.

Ambrose Runyard attended the funeral of Mrs. White, Waukegan, Monday.

Gall Platts spent Sunday with the Starbucker family at Twin Lakes.

The Misses Ethel Runyard, Lillie Baethke and Irene Norvey, Chicago, spent over Sunday with Miss Daisy Mickle and Mrs. Harold Mickle.

Bernice Longman, Elva Marks and Jack Kavanaugh are sick with the measles.

Mr. and Mrs. George Patrick, Byron Patrick and Miss Sarah Patrick attended the funeral of their cousin, Mrs. Fred Sabin at Watertown, Wisconsin, on Friday, and also called on Mrs. Kate Snyder and Mrs. Ethel Garity at Oconomowoc.

Mr. and Mrs. Gene Runyard, Waukegan, called on their father, Ambrose Runyard, Saturday.

Mr. and Mrs. Lewis Pepper entertained the latter's mother, a sister and family from Waukegan Sunday.

Tom Schultz, Chicago, spent Sunday with Harold Mickle.

Miss Louise Burbach, Chicago, spent from Friday till Monday with her brother, Vincent Burbach, and uncle and aunt, Mr. and Mrs. Andy Semmler.

Mrs. Florence Bloss spent Tuesday with the Patrick sisters.

Mrs. James Leonard, Chicago, spent Monday and Tuesday with Miss Daisy Mickle.

Mr. and Mrs. Fred Forester and children and Mrs. Joseph Smith attended the Lutheran bazaar and supper at Wilmot, Wednesday evening.

Rev. Toopel, Mayville, Wisconsin, spent Friday and Saturday with the Charles Oetting family.

Mrs. Nelson and children accompanied a cousin from Chicago to New Lisbon and Dorchester, Wisconsin.

For Lindy and Bride From Portes Gil

"Mexican Flowers," a work by the famous artist, Alfredo Ramos Martinez, that has been purchased by President Emilio Portes Gil of Mexico as a wedding present to Colonel Lindbergh and Anne Morrow.

ain, to visit her parents and Mr. Nelson's parents.

Mr. and Mrs. Henry Lubeno, Twin Lakes, visited at the home of their son, Harry Lubeno Friday.

Mrs. Sam Scholds and children, Wilmot, called at the C. A. Copper home Friday.

Mr. and Mrs. Andy Semmler and children visited relatives in Libertyville Sunday.

Miss Pauline Copper, Chicago, spent over the end of the week with her parents, Mr. and Mrs. C. A. Copper.

Millions Available

The United States could have produced approximately 24,000,000 men during the World war by a trust including men of forty-five years of age.

Bobby Jones a Lawyer

"Bobby" Jones, three times winner of the national amateur championship and twice holder of the national open golf title, has been admitted to the bar in United States District court at Atlanta, Ga. Bobby recently finished his law course at Emory university.

SALEM BOY BREAKS ARM IN FALL FROM TREE

Auxiliary Holds Fete— Fletchers Return From Eastern Tour

Raymond Griffin, youngest son of Mr. and Mrs. Will Griffin broke his arm the first of the week when he fell from a cherry tree.

The Legion Auxiliary held a lawn social Wednesday evening at the home of Mr. and Mrs. Herman Schonebeck. Ice cream and angel food cake was served to a large crowd.

Dr. and Mrs. Fletcher, Ogden Fletcher and Jennie Loescher returned home Saturday night from a motor trip through the East and Canada.

Mr. and Mrs. Newton Merdith left Monday for Janesville where they will spend the summer. Mr. Merdith having obtained work there.

Mr. and Mrs. John Osenga, Jr., and Dan and Nellie Osenga, Union Grove, had dinner Sunday with Mr. and Mrs. Oliver Hartnell.

Mr. and Mrs. Bunsel, Kenosha, and Mr. and Mrs. Ray Steine, Milwaukee, called on Mrs. Mary Acker Sunday afternoon.

Mr. and Mrs. Julius Krahn and two daughters visited relatives at Shades Corners Sunday.

Howard Johnson, Mrs. Ada Huntton, Mrs. Mary Acker, and Mrs. Olive Mutter were in Kenosha Friday.

Mrs. Mary Acker entertained at dinner Sunday Mrs. Alta Stephens and Mrs. Dolly Van Dyke, Beloit, Mr. and Mrs. Ed Davis, Genoa City, and Mrs. Lambert, Forest, Illinois.

Mr. and Mrs. Frank Dixon and son and Mr. and Mrs. Roger Huntton and children had Sunday dinner at Fox River park.

Elwin Manning, Howard Johnson, Louis Jarrigo, Mrs. Ada Huntton, Mrs. Leo McVicar, Mrs. Orville Riggs, Mrs. Eugene Hartnell, Mrs. Mary Hope and the Misses Olive Hope and Jessie Loescher attended O. E. S. guests' night at Bristol Wednesday evening.

Mrs. Oscar Holt, daughter, Shirley, and little son, Winona, Minnesota, are visiting at the Hammer Sandin home while Rev. Oscar Holt is attending summer school at Garrett.

OSCAR WESTLUND'S BAND PUTS PEP IN STEP AT ANTIOCH PALACE

Oscar Westlund and his Minnesota Gophers from the University of Minnesota, Brunswick recording orchestra, made an instantaneous hit with dancers at the Antioch Palace last Saturday night when they made their initial appearance. Westlund and his ten-piece band have played in Minneapolis for seven years, but the Gophers are quite well known throughout the central states through their broadcasts over WCCO and KSTP, and the fact that they have been recording artists for Brunswick. Their records, "Jealous" fox-trot, No. 15800, and "When My Sugar Walks Down the Street," are popular with local people. The records may be heard at Keulman's.

PRESSURE COOKER GIFT FROM SPAIN

American Turned Bean Pot Into Scientific Piece of Kitchen Equipment.

Spain is known not only for her dashing toreros and dancing girls with scarlet shawls and clicking castanets, but is equally famous for her cooking which she has raised to the point of an art. Every Spanish woman, known to her servants as La Senora, does her own marketing and supervises the cooking of the food. And how they do enjoy doing it! The

La Senora goes about her work with a song on her lips and the working women jest back and forth to one another as they prepare the food for the coming meal and the whole atmosphere is pleasant and happy.

So reports E. H. Hamilton of Eau Claire, Wis., food expert and inventor of the modern pressure cooker, who is now in Europe studying the methods of food preparation of the leading civilized countries.

The Spanish woman is partial in serving her family one-dish dinners. A favorite one of these is called "cocido" and consists of chick peas, potatoes, cabbage, meat, peppers and sausage all cooked together in a big pot over a charcoal burner. Very few ovens are found in Spanish kitchens.

Cooking over a single charcoal burner is a slow, tedious process. About twenty-five years ago, however, the Spanish bean pot was invented, and is the forerunner of the present-day pressure cooker which has so revolutionized cooking and canning in the American home.

Brought to America the pressure cooker has been developed and refined until now it is a scientific piece of equipment. Experiment proved that food cooked in this way not only saves both time and fuel but is tasty and nutritious; since none of the mineral salts is lost nor the vitamins destroyed.

But Spain is a conservative country and will probably stay by her charcoal stoves and iron bean pots for many years to come.

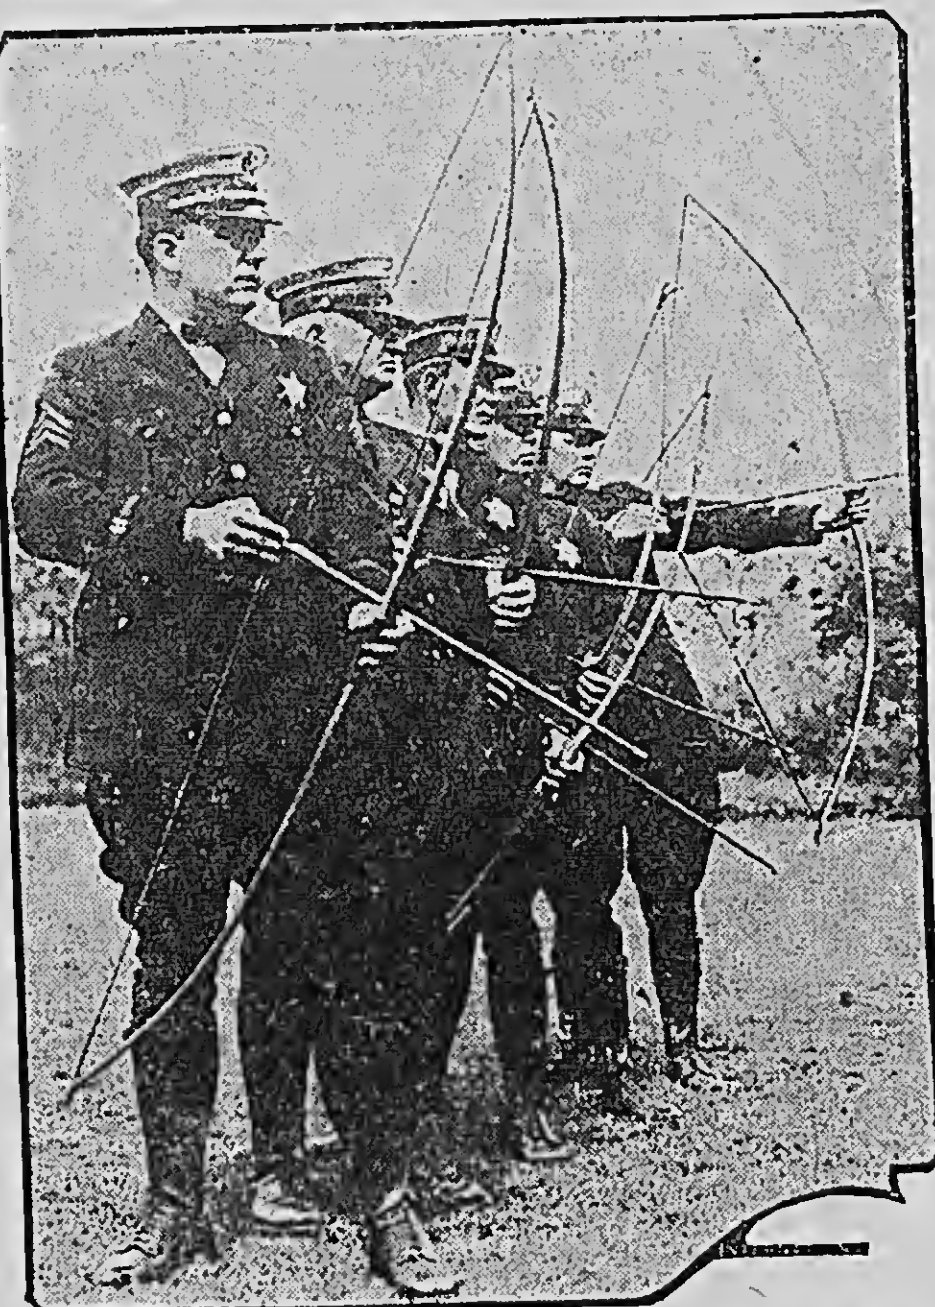

Varieties of Police Dogs

The term "police dog" does not indicate any particular breed, but only the purpose to which dogs of various breeds can be, and are trained. Shepherd dogs of Germany, France, Russia and Belgium, together with pure-bred dogs of other breeds, cross-breeds and mongrels have been trained and used as police dogs.

How Great State Got Name.

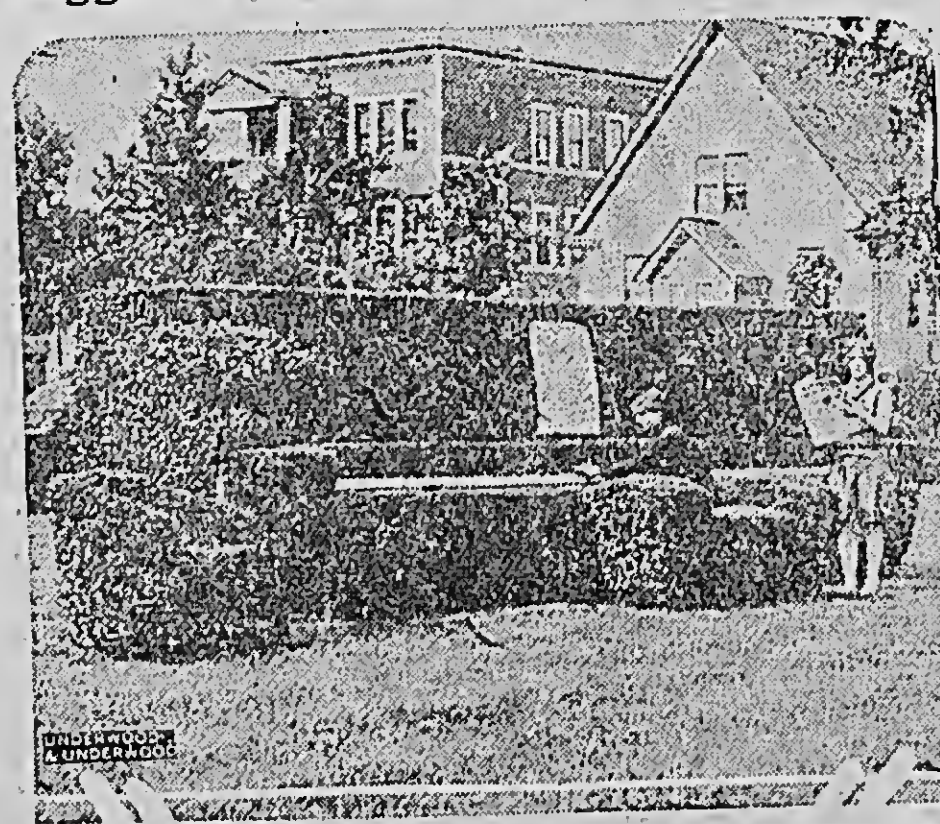

The aborigines who occupied what is now Texas had a term, "tejas," which meant "allies" or "friendly." The early Spaniards interpreted it as a tribal name and used it as a place name. With the English it took the form "Texas."

Chicago Park Police Are Archers

South park police of Chicago have organized an archery club, and some of them are developing great skill with the bow and arrow. Here are five of the best in an archery tournament in Jackson park.

Biggest Piano Grown in Ten Years

After ten years of clever manipulating with a pair of clippers, Frank Zelo, Bridgeport (Conn.) gardener, now boasts of being the designer and grower of the largest piano in the world. The great outdoor piano is 20 feet long and stands nearly six feet high.

On the Wrong Road

"De man dat neiber helps nobody else," said Uncle Eben. "Is liable to git whar he ain't even helpin' himself."

University's Position

A university should be a place of light, of liberty, and of learning.—Disraeli.

Leading Childish Mind

The modern child is more readily led than driven, and this is specially true as the child grows older. Take the child into your confidence when you want him to do something. Tell him why. Most children are glad to co-operate.—Exchange.

Young People Will Be Young People

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Youth has always taken chances wherever we find youth, and in the eyes of middle-age has ever leaned toward the unconventional.

No one hates advice and regulation so much as young people; they are eager to go their own way, and possibly not more so today than they have previously been. I am just replying to a letter from one hundred and thirty years ago, so Miss Austen's biographer says. Isabella reckless and daring to ignore the conventions of the time, was going off unchaperoned in an open carriage to drive fifteen miles or so with her brother John and Mr. Morland. It was as bad as if a pair of lovers today should park their car on a side road at midnight with the lights out. Catherine was discussing the matter with the Allens whose guest she was at Bath.

"Well," said Mr. Allen, "do you think of going too?"

"No, I had just engaged myself to walk with Miss Tilney before they told me of it; and therefore, you know, I could not go with them, could I?"

"No, certainly not," Mr. Allen replies, "and I am glad you do not think of it. These schemes are not at all the thing. Young men and young women driving about the country in open carriages! Now and then it is very well, but going to Inns and public places together! It is not right; and I wonder Mrs. Tilney should allow it. I am glad you do not think of going; I am sure Mrs. Morland would not be pleased. Mrs. Allen, are you of my thinking? Do not you think these kind of projects objectionable?"

"Yes, very much so, indeed. Open carriages are nasty things," Mrs. Allen replies, thinking more of her clothes than of the awful immorality of which the wild young people were committing. "A clean gown is not five minutes wear in them. You are splashed getting in and getting out; and the wind takes your hair and your bonnet in every direction. I hate an open carriage myself."

"I know you do; but that is not the question. Do not you think it has an odd appearance if young ladies are frequently driven about in them by young men to whom they are not even related?"

"Yes, my dear, a very odd appearance, indeed. I cannot bear to see it."

And then Mr. Allen, more philosophic possibly than his wife, "But one must not be ever particular. Young people will be young people as your good mother says herself. Young people do not like to be always thwarted."

No more do they today any more than they did one hundred and thirty years ago when Jane Austen was a girl. Perhaps the best solution is not to take their irregularities too seriously but to be philosophical about it as Mr. Allen was. They are going to do quite as they please anyway in spite of our protests.

KNOT HOLE NEWS

Vol. II

Thursday, July 4, 1929

No. 25

Published in the interest of the people of Antioch and vicinity by H. R. Adams Lumber Co. H. R. Adams, Editor Rex Bonser, Mgr.

Now comes the Fourth of July. Of course, we shall all celebrate, but with all our fun, don't let us forget what it is all about, because this day is peculiarly American, and the biggest day in the year to a true citizen.

How can some folks say "everybody's broke" when official reports show income taxes paid this spring are eighty million dollars ahead of last year.

Judge: "Injustus, you are up here for intoxication."

Rastus: "Dat's fine, Judge, bring on the intoxicants."

Every year we make it our business to remind our friends that coal prices are at their lowest just at this time. They sure

are and now is the time to place your order for next winter's supply.

"We don't need to know what it is like to know how the new money will look. We know darn well that it is going to look good to us."

Canning season will soon be here and if we men-folks had to can the fruit, it wouldn't be long until we put in another window in the kitchen, so as to make it cooler. Wouldn't your wife appreciate another window in that kitchen in your home?

Speaking of canning—you have to pick the fruit before you can can it, and some of it grows pretty high. Do you have a ladder that will reach that choice fruit in the top of the tree? If not, just give us a ring and we will fix you up.

"Let me kiss you under the mistletoe."

"Say, I wouldn't let you kiss me under an anesthetic."

We hear that our new ambassador to England, Chas. G. Dawes, attended the court of St. James in regular Chicago pants. Murray for Charlie.

Better place your order for Waukegan Koppers Dustless Coke.

Don't you believe it! This rumor that sorority girls are worried about holding their shape is the bunk. Yes, sir! They're leaving that up to some man.

Mighty hard to convince some folks that "modernizing" the old home is money wisely spent but when they hear of some neighbor who made a big profit by doing so, then old-home owners wonder why they didn't get busy, too.

SOCIETY and PERSONAL

GIRLS GIVE SHOWER FOR BRIDE

Misses Esther Stearns and Louise Simons were hostesses at a miscellaneous shower given at the Stearns home Tuesday evening in honor of Mrs. Esther Barthel Britton.

T. B. Rhoades, Lake Villa ice dealer, was a business caller in Antioch Monday.

Edward Lynch returned to his work in Chicago Monday after a week's vacation spent with relatives in Antioch.

The Robekahs invite you to their ice cream social next Wednesday night, Sablin lot next to News office. Mr. and Mrs. Earl Horton and Leslie Pansch and sister returned Friday from northern Wisconsin, where they had been on a vacation for a week in quest of the flinty tribe. Mr. and Mrs. A. B. Johnson and Mrs. Lucinda Cribb were in Elgin Wednesday.

Mr. and Mrs. George Malek and children, Berwyn, spent the end of the week with their parents, Mr. and Mrs. James Buhor.

Mr. and Mrs. Frank Cerny and family and Mr. and Mrs. A. Lindauer and family spent Sunday at the J. Buhor home.

Joseph Ewers, Danville, and August Firley, students at Illinois Wesleyan university, are staying with the J. C. Nixon family during the summer season.

Mr. and Mrs. Lee Middendorff entertained Mrs. Middendorff's brother and wife, Mr. and Mrs. Richardson from Miami, Florida, the last week.

Regular home-made cake with delicious cream—get this treat at the Robekahs' lawn social on the Sablin lot, next to News office next Wednesday night, July 10.

Ernest Warden and wife and child, Wichita, Kansas, were guests last week with the former's father, A. E. Warden and daughter. Mr. Warden is a member of the staff of the Wichita Eagle.

A. E. G. Campbell and son, New York City, were guests Friday with Mr. and Mrs. A. G. Watson. Mr. Campbell is an officer in the Montreal bank, Wall street, New York.

Ray Webb was a business visitor in the city Monday.

Nifty Sports Costume

This attractive sports costume consists of a two-piece dress of olive green crepe and a green felt sports hat trimmed with an ornament of crystals. The dress is made with plaited skirt and the overblouse is embroidered in green flowers of a darker shade.

Wealth in Peat Bogs

The Irish bogs are almost as great in extent as those of Germany. While the latter are from 9 feet to 20 feet deep, the Irish variety often reaches 40 feet. It has been calculated that such a bog contains 15-231 tons of peatstuff.

LADIES' GUILD MEETS WEDNESDAY

The Ladies' Guild of St. Ignatius church will meet with Mrs. Fred Hawkins at her summer home at Chain O' Lakes, Wednesday afternoon, July 10.

Mrs. Edward Graves, Dixon, Illinois, and daughter, Mrs. Albert Baker, Pontiac, and Miss Audrey Stewart, Lehigh, were guests of Mr. and Mrs. Roy Graves the first of the week. Edward Graves returned with his aunt for a visit at her home in Pontiac.

Mr. and Mrs. S. Boyer Nelson, Mr. and Mrs. F. W. Peters and Carol Nelson left Wednesday morning for a visit over the Fourth with Mr. and Mrs. George Panknin. The Panknins were former residents of this locality and were owners of the farm on Grass Lake, purchased by E. Smith and known as Heart O' Lakea subdivision.

Mr. and Mrs. A. Panknin and children, Chicago, on their way enroute to San Fernando, California, where they expect to spend a year, are guests over the Fourth with Mr. and Mrs. George Panknin. The Panknins were former residents of this locality and were owners of the farm on Grass Lake, purchased by E. Smith and known as Heart O' Lakea subdivision.

Mr. and Mrs. D. B. Sablin spent Friday at Whitewater, Wisconsin.

Mrs. John Blackman has been entertaining her sister, Miss Victoria Madison, Kenosha, the past week. Mrs. Bob Mann spent Tuesday in Chicago.

The Ladies' Aid society held a home bakery sale at the Wetzel sales-room last Saturday. A number of the ladies were kept busy frying doughnuts at the church basement to keep up with the demand.

Miss Delores Blackman has returned home after visiting the last week with her grandmother, Mrs. Madison, in Kenosha.

Revealed by the Eye

The countenance is the portrait of the soul, and the eyes mark its intentions.—Cicero.

Brain Work Exhausting

Four hours of hard thinking exhausts the tissues as much as ten hours of manual labor.

DIPPING INTO SCIENCE

Why We Stop Growing

The reason we stop growing is because there is a limit to the growth in size of the cells which make up our body. During youth, exercise and nourishment permit cells to grow and multiply up to a certain point, but the "law of growth" prevents undue multiplication or size when the limit is reached. (© 1929, Western Newspaper Union.)

Food Requisite

The most important mineral substances required in food are the salts of iron, iodine, phosphorus, calcium (lime), manganese, potash and soda. Iron is required for the blood. The red coloring matter, largely composed of iron contained in the red corpuscles, carries the oxygen taken in by the lungs all over the body.

Amusements

O. E. S. Will Present Richard Dix in Talkie Picture at Antioch

"Nothing But the Truth," Paramount comedy drama with Richard Dix as the star is to be presented at the Antioch theatre, Wednesday, Thursday and Friday, July 17, 18, and 19, under the auspices of the local chapter of Eastern Star. This is an all talking picture and one of Paramount's notable productions of the year.

Channel Lake pavilion, ever popular amusement place, continues to draw large crowds every night, and capacity throngs over the week ends. Bruce Werts and his Illinois Troubadours, famous recording orchestra, are proving to be very popular with dancers. There is no dancing at Channel Lake Monday nights.

Father Sage Says

While it is possible for a man to achieve happiness, few are fortunate enough to have it thrust upon them.

10:30 a. m.—Holy Eucharist.

Next Sunday the pastor will have for the theme "Christian Love." A change of heart is the first step in the practice of the Christian life. Will those who are behind on their church support see or send to Mr. William Kelly, the collector.

Methodist Church Notes
Philip T. Bohl, Pastor
Phone 240

The Ladies' Aid society are having a business meeting at the church on Tuesday evening of this week. The Boy Scouts also met on Tuesday evening at their room at the church at 7:30. All Scouts belonging to Troop No. 61 are planning for an over-night hike in the near future. It is reported that two of the scouts who are at camp have passed all tests preparatory to becoming First Class Scouts. This will now permit them to earn various of the many merit badges which are available to industrious First Class Scouts.

The Thimble Bee society will not meet this week, but will meet next week Thursday at the home of Mrs. Elsie Schroeder at the lake.

The Sunday services will begin with Sunday School at 9:45. Morning worship, including Junior church, at 10:45. There will be special music. The Junior church is a new

feature of the Morning Worship service. This will precede the Senior Church Service, consisting of appropriate music and a short sermon for the Juniors. All the children of the Sunday School are urged to be present for this service, after which they will be given the opportunity to leave, those who cannot stay for the remaining services.

The following "Pertinent Questions For Any Church-Member" were clipped from a recent issue of the Epworth Herald.

"If all the persons of the church acted the way I do—

Would we have Sunday Schools?
Would we have missionaries representing us on the home and foreign fields?
Would we support all moral reforms?

Would the Sabbath day be well kept?
Would people feel free to come to us with their troubles?
Would human heart aches worry us?

Would we sacrifice to win men to Christ?
Would there be any conversions in our church?
Would the general public believe we had any religion at all?"

CHRISTIAN SCIENCE CHURCHES

"Christian Science" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 30.

The Golden Text was, "O send out thy light and thy truth: let them lead me; let them bring me unto thy holy hill, and to thy tabernacles" (Psalms 43:3).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The Spirit of the Lord God is upon me; because the Lord hath anointed me to preach good tidings unto the meek; he hath sent me to bind up the brokenhearted, to proclaim liberty to the captives, and the opening of the prison to them that are bound" (Isaiah 61:1).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The letter of Science plentifully reaches humanity today, but its spirit comes only in small degrees. The vital part, the heart and soul of Christian Science, is Love" (p. 113).

THURSDAY, JULY 4, 1929

"Advertising is the greatest single force in modern business. No man can successfully engage in any kind of business today without a realization, indeed, a real appreciation, of the tremendous power of advertising." This statement was made by L. A. Downs, president of the Illinois Central Railroad, when speaking at a recent banquet which closed the three-day session of the International Association of Newspaper Advertising Executives.

"To put it in the plain language of my calling, advertising is the motive power which pulls the gigantic train of modern business." Over there as here at home, Downs speaks from experience, since his company for nine years has successfully used newspaper advertising to combat the decrease in freight and passenger traffic brought about by the development of motor vehicles and the building of concrete highways.

AUTOMOBILES, AIRPLANES AND CRIMINALS

In commenting on a 17 per cent increase in the number of indictable offenses committed in England in a single year, the London Morning Post said:

"It is disconcerting to find that the main increase has been in the category of offenses against the person. The nation is becoming less instead of more law-abiding and the character of offenses committed is more rather than less serious."

Commenting on the English situation, the Times Magazine of New Orleans says:

"The growth of crimes of violence, the very type that our modern civilization by all rights should tend to lessen," is not explained. "Over there as here at home the payroll robbery is conspicuous as is the personal holdup and the getaway in the stolen automobile."

The automobile as a quick means of transportation has greatly added the criminal. Crime reform movements based on a program to prevent the manufacture and sale of small arms on the theory that this would disarm the criminal, at the expense of all law-abiding citizens and an important branch of national defense, is on a par with a law to prohibit the manufacture and sale of automobiles on the theory that that would prevent criminals escaping from the scene of their crime.

The next 10 years will see the apprehension of criminals made more difficult by the fact that they will be using airplanes instead of automobiles and instead of merely crossing state lines, they will be crossing international boundaries. Yet that is no reason for prohibiting the manufacture and sale of airplanes, thus crippling another most important branch of national defense.

Whatever additional legislation may be necessary to help curb crime, it should be aimed at the criminal and not against the honest citizen.

THE REASON FOR THE TARIFF

Theoretical anti-tariff arguments cannot offset the fact that unrestricted, cheap-labor foreign competition injures American farm and factory labor.

We have established a new industrial ideal where workers are paid high wages and enjoy the best living and social advantages of any workers in history.

Many foreign countries still exist under a modified feudal system and are far behind in prosperity. European workers are poorly paid compared with American wages, and their social advantages cannot be compared.

Our tariff endeavors to equalize so that our producers can sell in our home market on an equal price basis with foreigners.

SAFETY TREND IN AUTOMOBILES

It wasn't so long ago that by law the railroads were required to replace all wooden passenger coaches with steel cars, as a safety measure.

Automobile manufacturers are voluntarily adopting all-steel car bodies as one means of reducing accident hazards on crowded highways.

Old Eagle Eye Says--

Believe it or not, an Antioch merchant (or rather a store-keeper) said: "No sir-ee, I do not believe in advertising." Imagine that? In this modern age a man who has goods for sale does not believe in the third largest business in the world? Wonder if he believes in railroads, or the great Standard Oil company? Eagle-eye didn't wait to ask him if he thinks the world is flat.

Ever watch window shoppers in Antioch? An attractive window display always gets attention. An actual count of people who saw things interesting in Antioch store windows yesterday was 53 in a single block. Some of the displays are unique. It's an inexpensive way to advertise, and it does get business.

"Those surely were the good old days," remarked an Antioch man, referring to the time when he made less and didn't owe anything. So that as it may, you can't be a bridge expert unless you are the type that can say "make" when you mean "shuffle," and not feel silly.

Travel really is broadening, according to Rev. H. C. Dixon, popular Antioch pastor, who explains that a friend of his returned from Europe with a very broad "a" in "case."

Add to Main street's brilliancy the Antlers Hotel. Many vari-colored incandescents around the front are very attractive and the screened porch in which are dining tables, is a very inviting place for the hungry.

Booze and gasoline won't mix any better than they ever did. A driver, much over-laden with moonshine, traveling north on Wisconsin 12 Sunday afternoon, cut traffic and passed everything on the road until the inevitable happened. A wrecker got his car, also the car of an innocent party, and the cops got the roadhouse friend. But the guy had a holy good time enjoying his American right to do as he pleased and his personal liberty—as long as it lasted.

FARMERS NEED MORE THAN FANCY PASTRY AND LIGHT FOODS

Working Men Have to Have Something That Will Stick to Ribs

Urbana, July 4 — Watermelon and lemon pie may tickle the palates of harvest hands, but foods like these don't get the thrashing done, it is pointed out by F. C. Olson, of the meats division, College of Agriculture, University of Illinois. The men need something that will stick to their ribs and for this purpose there is nothing like good wholesome meat, he said.

"Quality is the most important factor in selecting meat. It is much better to buy the cheaper cuts of good quality than to buy the more popular cuts from poor quality meat. At this time of the year, steaks, chops and small rib roasts are much in demand by the city apartment dwellers and as a result they are high in price. The cheaper cuts are just as nutritious, as palatable and usually more tasty than some of the choice and high-priced cuts.

Variety is Possible
"The cheaper cuts of beef lend themselves to many uses. For instance, what is tastier to a hungry man than the old fashioned short ribs and browned potatoes? Other parts of the naval plate, brisket, flank, neck and shank may be used for stews or they may be braised and served with a variety of vegetables. For pot roasts and their delicious gravies what is cheaper and more economical than either the chuck rib or shoulder arm roasts from the chuck? The ramp is economical and usually will furnish a roast for a small crew. Variety may be assured both by changing to different kinds of meat and by the choice of different cuts. The glandular organs, such as the liver, heart, kidneys and brains, may be made into many possible dishes. Any good cook book will tell how to prepare and season these dishes so as to camouflage them for the particular person.

Stew or Roasts?
"Cured meats have many possibilities, especially the cured pork pro-

IGNORANCE ENCOURAGES FRAUD

The fraudulent stock salesmen and promoters who are said to obtain a billion dollars a year from the public, thrive on the ignorance of investors.

Practically every get-rich-quick scheme is a fraud. And the legitimate stock exchanges, investment bankers and brokers of the United States, in co-operation with the Better Business Bureau and other organizations, are doing everything possible to protect the investor and bring his money into honest industry.

The average investor lacks the knowledge to study stock issues and the things that make them either failures or successes. He should avoid "tips" and buy only securities which are listed by recognized stock exchanges and reliable investment bankers.

RESISTANCE TO THE MAJORITY

Less than eight months ago Herbert Hoover was elected President by an overwhelming plurality. His election represented a vote of confidence in his leadership, and a popular mandate for the program he stood for.

Yet within four months of President Hoover's inauguration we had a tremendous resistance developed on Capitol Hill—especially in the Senate of the United States—to the carrying out of his program, and an organized effort to resist and discredit his leadership; an effort to render barren of results the session of Congress called for the purpose of fulfilling the pledges of the majority party to the voters.

At the bottom of this resistance is a studied defiance of public opinion as expressed at the last general election. It is a deliberate flouting of the will of the American people, clearly expressed at the polls.

It is true that the executive department of the government is not the legislative department. But the President is made a partner in legislation through the veto power. It was well known by the Senators who thrust the disfigurement provision into the farm relief bill that in so doing they were denouncing the Senate with the House of Representatives and with the President. They very well knew that the adoption of this amendment meant the delay or defeat of farm relief.

The proposal was a new one not discussed by anyone in the last campaign. It is certain that some members of the Senate adopted this policy of opposition merely to embarrass the President and the administration. It was Senator Copeland of New York who frankly admitted that he "held his nose" as he voted for a proposal he believed would put President Hoover "in the hole."

Putting Presidents "in the hole" may be a safe policy when that President does not have public opinion behind him. The people are still with President Hoover, however, and those who are busy baiting the President are at the same time baiting that public opinion which makes and unmakes Senators as well as Presidents.

It is unfortunate that at this time we cannot have co-operation between the Senate and the President for the general good of the country. The fault for that lack of team work clearly rests, however, not with the President, but with a partisan and factional coalition in the Senate. It is about time that statesmen, no matter what labels they wear, should co-operate to solve public problems, rather than to spectacularly perform for factional, personal and partisan advantage.

Anyhow the Graf Zeppelin landed right side-up, which is something for a balloon to be able to do, anyway.

One nice thing about being an editor is that you don't have to worry whether the federal discount rate is five per cent or six.

The trouble about most fellows playing the stock market is that they are bears when they ought to be bulls and bulls when they ought to be bearish.

One thing that it doesn't seem to pay to sell second handed is Uncle Sam's postage stamps.

If the pacifist were consistent he would be against burglar alarms and watch dogs in his home and would prefer to negotiate an agreement with the burglar after he had entered the home by jimmying the kitchen window.

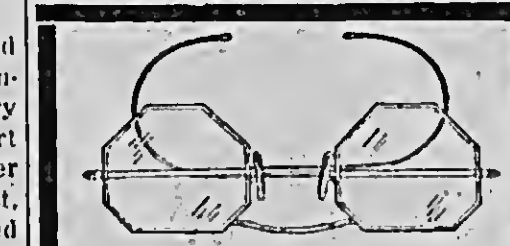

An absent minded professor at Columbia University went away on his summer vacation after forgetting to give the students their final exams. Any small boy will tell you that here is an ideal teacher.

duets. Heavy hams may be bought for considerably less a pound than the much-demanded, lighter-weight hams. Cured shoulders or picnic hams may be used to good advantage and are very economical. Either jowls, "Dixie squares" as they are called, or brisket bacon are cheaper and may be used to advantage instead of side bacon for seasoning or flavoring.

"A source of fresh meat may be supplied if lambs are available on the farm. A man can dress out a lamb in a few minutes and because of its size it can be consumed before it has had time to spoil. The legs, shoulders and loins may be used for roasting, while the breast and flank make good stew."

FREQUENT SPRAYING WILL BE NECESSARY TO SAVE PEACHES

July Is The Time When Fruit Trees Should Be Treated

Urbana, July 4 — Frequent spraying during July will be necessary to protect Illinois' bumper peach crop against the menace of the serious brown rot disease, according to a warning by Dr. H. W. Anderson, associate chief of pomological pathology at the College of Agriculture, University of Illinois. This year with a record crop in sight, it will be more important than ever that only first-class fruit be put on the market. Such fruit is impossible unless strict precautions are taken against brown rot, he said.

Don't Leave Residue
Brown rot is a serious menace during the period from a month prior to harvest up to and including harvest. In fact, the most critical period for infection is during harvest when the fruit is handled by numerous operators. Furthermore, the fruit must be protected during transit and on the market until it finally reaches the consumer.

The Elberta peach harvest will begin in the extreme southern end of the state about August 1 and at Centralia about August 10. Frequent sprayings during July therefore will be necessary for protection. Sulphur fungicides generally are used for spraying against brown rot. A dust composed of 90 parts of fine sulphur (300 mesh) and 10 parts of a good grade of hydrated lime should be used for the dusting.

Unfortunately, some of the recommended sulphur sprays contain so much lime that an unsightly residue is left on the fruit at harvest. This is true of self-bolled lime sulphur and dry mix sulphur lime. These standard fungicides should not be used after the middle of July. Some of the commercial wettable sulphurs should be used in all sprays which are applied within the two weeks before harvest.

Might Condemn Fruit

time will depend upon the weather. If possible, the last spray or dust should be put on only a few days before harvesting so that the fruit will go into the containers with a coating of the fungicide. This will aid in reducing brown rot in transit.

Under no circumstances should lead arsenate be added to any of the late brown rot sprays. Not only is it unnecessary, but also it might cause the fruit to be condemned by government inspectors.

Thousands of improvements in central office equipment in 5 years

In the last five years there have been hundreds of improvements of major importance in telephone central office equipment in the Bell System, and lesser improvements by the thousands. Improvements have been made in switchboard cable, in relays, in cords, in condensers, in selectors, and in the development of new and better materials for all kinds of equipment used in the central offices.

These improvements have not only helped to meet the steadily increasing complexity of telephone requirements. They also make possible the high-speed service which is eliminating delay from the personal contacts of people anywhere in the United States, whether they be separated by three floors of a building or three thousand miles of country.

There is no standing still in the Bell System. Better and better telephone service at the lowest cost is the goal.

STEAM DEADLY TO BACTERIA IN MEAT

Dr. Spiesman Tests Reveal Ordinary Cooking Methods Do Not Kill Spores.

Chicago, Ill.—Every housewife's problem of preparing bacteria-free meat for her family's table, is about to be solved.

This is indicated in researches being brought to a close here by Dr. Manuel G. Spiesman, specialist in diseases of the intestinal tract, working in conjunction with Mrs. Grace Viall Gray, home economics expert of the Household Science Institute.

In brief, Dr. Spiesman's experiments show that if every housewife were to cook her meat dishes under steam pressure instead of in open kettles, that the meat would be unquestionably safe for eating without detracting in the least from its nutritive or palatable qualities.

To the layman, perhaps the most surprising fact revealed by Dr. Spiesman's studies was that the cooking methods ordinarily used in most households—oven, boiling, broiling and frying—do not destroy all of the spore-bearing bacteria in meat.

Boiling is more effective than frying and frying more effective than either oven or broiling, but even so, some of the bacteria were found to survive in meat boiled for one and one-half hours. The only meat that was found to be entirely free of parasites was cooked in a pressure cooker in which the steam penetrated into the interior of the meat.

Does Not Kill Spores.
"The ordinary methods of cooking," said Dr. Spiesman, "do not appear to be able to muster enough heat to kill the spore especially those in innermost portions of the meat. While boiling will destroy most of the animal parasites such as tapeworm, destruction of the spores is not certain unless steam under pressure is sent into the interior of the meat to deal with these pathogenic heat-resistant organisms."

"Moist heat has a penetration power not possessed by dry heat, and the most resistant spores are killed by steam within a few minutes. The higher temperature possible in pressure cooking kills the more hardy spores that survive in other cooking methods."

Bacteriological examinations have shown that meat harbors millions of spore-bearing bacteria long before its odor or appearance shows any evidence of decay. Since cooking does not destroy the spores of the bacteria, they enter the colon, which in many ways an ideal incubator, and there develop into putrefactive organisms capable of producing poisonous toxins.

The task Dr. Spiesman set for himself was to try and find some method of preparing meat that was bacteria-free.

Cooks Meat in Autoclave.
In Dr. Spiesman's laboratory, as in the office of many another physician, a steam sterilizing apparatus called an autoclave is used to sterilize quickly and thoroughly tanks, test tubes, pipettes, throat swabs, etc. The idea of cooking meat in the autoclave occurred to Dr. Spiesman. He also had other and similar portions of meat cooked in the usual ways, and bacteriological examinations made of all samples. Every sample of meat but the one in the autoclave showed signs of bacteria; within fifteen minutes of the time the meat was placed in the autoclave, there was no trace of either bacteria or spores.

Dr. Spiesman then ran another test, this time with a pressure cooker, which is really an autoclave adapted to household use. The results with the inexpensive pressure cooker were exactly the same as those previously obtained with the most expensive autoclave.

Aside from its uses in meat cooking, the pressure cooker, from the housewife's point of view, has many other good features. It is cheap, easily manipulated, and a fuel saver no matter what type of heat is used. It is a time saver, too, especially in slow cooking processes used with beans, meats and cereals.

An interesting sidelight on Dr. Spiesman's experiments is that excreta of patients eating meat prepared with a pressure cooker do not reveal infection with spore-bearing putrefactive bacteria, as is usually the case with meat cooked any other way.

PRESSURE COOKER BIG AID IN HOME CANNING

Summer is here with all its luscious fruits and tender green vegetables and every homemaker's thoughts are turning to canning.

The ideal canner is the pressure cooker, which is recommended by the U. S. Department of Agriculture. Foods canned in this cooker are sterilized at temperatures much higher than boiling point. Higher temperatures give added safety in the canning of such vegetables as peas, beans, and corn.

In addition to making for safety in canning, pressure cookers save time and fuel.

New Mundelein Village Hall Formally Dedicated Tuesday

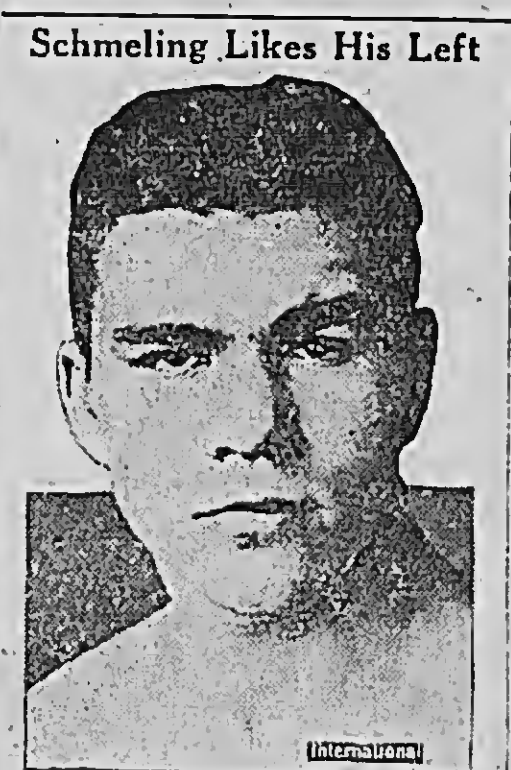

Formal dedication of the \$35,000 Village hall at Mundelein, occurred Tuesday, July 2, at 2:30 o'clock and was one of the biggest events in the history of the village.

Several distinguished guests were present, among them being Samuel Insull, Judge Benjamin H. Miller of Libertyville, who also is Attorney for the Village of Mundelein; Mayor Charles Bartlett of Evanston; Luke Grant, publicity manager of the North Shore Line; and Rev. Mr. H. F. Wolf, Procurator of St. Mary's of the Lake Seminary, R. G. Hazelbush, Architect of Chicago who made the plans; R. F. Rouse, president of the Board of Trustees; and Rev. C. Arthur Jayne, Pastor of the First Congregational church of Mundelein also took part in the program. The Libertyville band furnished the music.

The new Village hall is located on Hawley street, north of the New North Shore Terminal. The land for the site was donated by the Lake County Land Association. Visitors were present from all parts of the county to attend the program. The Mundelein Village hall is acknowledged as one of the finest structures in Northern Illinois. It is of English Domestic design and serves the entire community in all its activities. The new hall is in a central location which is close to the Mundelein Terminal which is the center of one of the greatest town developments of this age. It may easily be termed the modern community. The public, invited to attend the dedication services, were well rewarded for the trip.

Schmeling Likes His Left

Max Schmeling, German heavyweight champion, contemplating the left which he hopes to use to advantage in the New York fight with Paulino Uzcudun, heavyweight champion of Europe.

THE NON-CONFORMIST

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Speaking of one of our well-known political leaders who has constantly been on the other side no matter what issue was being considered or what action was being advocated, one writer says of him:

"He is a non-conformist and proud of it. His eye is to find out what those associated with him think is wise, and then to do his best in embarrassing them in realizing the success of their undertaking. He is of the team but never with it. He never wants to go in the same direction as the rest, at the same time. It seems though he makes it his business to find out what his supposed friends and allies want to do, and then opposes it."

A great many people feel that it shows wisdom to find fault with whatever is being done, to pick flaws in whatever seems to have in it virtue or merit, to pull in the opposite direction. They have no idea of the meaning of co-operation; they have never realized the power of team work.

Hobbs is a nonconformist. He thinks most of our social customs poppy-cock, and he considers it a virtue to ignore them. For years he refused to wear a necktie. It was only when golfers and young sportsmen began running about with their shirt collars open that Hobbs took to cravats. No one has ever been able to get him into evening clothes. He wears an old-fashioned cut-a-way coat while doing his chores about the house, and gets into a business suit when he is dressing for any formal function. He eats his salad with a spoon and drinks tea from a saucer, and considers himself a reformer, while other people look upon him as something of a boob.

Young Spradling is another variety of the nonconformist. He thinks Mr. Voilead was crazy when he conceived

prohibition; he pays no attention to the law. Nothing gives him so great a thrill as to drink publicly and copiously. Thirty-five miles an hour, the limit prescribed by law for motorizing along the highway, is a snail's pace, and Spradling hits twice that pace with impunity. When he is arrested he rails against the injustice of hindling his progress with stop signs and traffic laws. Anything which attempts to keep Sunday quiet and orderly puts him into a frenzy. Why is Sunday better than any other day, he'd like to know? Any such conventions as chaperons and early hours for retiring, and midvietorian proprieties he consigns to the lower regions.

Jones was trying out for the basket ball team last winter. He had a theory of his own as to how the game should be played, a theory which was quite at variance with the ideas of the coach. He wanted to play his own game in his own way, and so far as he could see, the other fellows were all wet, which is merely another way of saying that they didn't know what they were doing. Jones didn't make the team because he refused to conform.

It is true in life that the nonconformist usually is relegated to the side lines.

Suet on Device an Aid to Health and Cleanliness

Enough air, of comfortable temperature, with proper relative humidity, kept in moderate motion—these, according to the Holland Institute of Thermology of Holland, Mich., are the four prime requirements of modern ventilation. Next most important is air purity, meaning freedom from dust and all other objectionable matter. Inasmuch as one-quarter of the dust in the average home comes from the heating plant, it is important to health, as well as for cleanliness, that the heating system be kept clean. This is done in a minimum of time by giant suction cleaners which remove all dust and soot from the heater and all pipes mechanically.

Flue Cleaning Urged as Safety Measure

Chicago.—Clean your heating plant and chimney and forestall the possibility of a fire in your home, John Touhey, chief of the fire prevention bureau, said in a Cleanup week message to Chicago.

Chief Touhey. "There is no question in my mind that if all chimneys were thoroughly cleaned it would eliminate many chimney and roof fires. Fifty per cent of all chimney fires are caused through lack of proper cleaning of flues."

"The modern suction heating plant cleaner with high-powered motor and ample suction is a potential safeguard against fire. A clean chimney increases the efficiency of the heating plant and reduces the smoke bill."

Hearing out the last statement, the Holland Institute of Thermology points to recent tests by the United States bureau of standards which show that an eighth of an inch of soot on the heating plant pipes cuts down its heating efficiency 23 per cent, while a quarter inch reduces the heating systems' performance by 49 per cent.

Too Much Sleep Possible
Dr. Risica Russell raises the point that just as most people eat too much there is a probability that many indulge in too much sleep. But this does not apply to children.

High Mountain Peaks
Everest, Godwin-Austen, Kanchenjunga, Makalu, Dhaulagiri, Nanga Parbat, are mountain peaks in Asia and each is over five miles high.

A complete outfit for your camping tour—at 100 Gamble Stores. They are everywhere in the vacation territory. Tents, \$9.25 to \$19.95. Camp stove, \$3.89. Icebox, \$2.95. \$820 6th avenue, Kenosha.

STOMACH TROUBLE YIELDS TO MERIT OF NEW KONJOLA

Sour, Acidic Condition Is Banished; Also Relieved Of Severe Neuritis Pains

MR. JERRY BERTOLINI
"Konjola is the medicine I should have had in the first place," said Mr. Jerry Bertolini, Lockport, Road, Route No. 1, Box No. 91, Lockport, Illinois. "For a number of years I was in constant misery from stomach trouble. My food soured and fermented. The pains in my abdomen were hard to bear. I was constipated, and did not sleep well. Neuritis set in, and I was hardly able to dress myself. Day by day I became worse. I was discouraged."

"I started with Konjola on the advice of friends. The first bottle showed remarkable results. My bowels are regular, and the pains are eliminated. With them went the neuritis pains. Stomach trouble simply vanished. I can eat things I never dared touch before. Now strength and energy are mine! The old sluggish feeling has been replaced by one of vitality and vigor. I praise Konjola because I know what it can do, and hope that others will profit from my experience."

Konjola is sold in Antioch, Illinois, at S. H. Reeves' drug store and by all the best druggists throughout this entire section.

Easy to Put Up Preserves With a Pressure Cooker

The woman who has a pressure cooker will find canning requires little time, effort or expense. Also it is endorsed by the United States Department of Agriculture as being the only safe method of cold pack canning. This is because the high steam pressure effectively kills all germs and makes spoilage virtually impossible.

Strawberries are the first fruit to appear, and it is well to put up plenty of these as they are a favorite on almost every table.

Use sound, ripe berries, thoroughly (© National School of Pressure Cooking).

picked over, washed and hulled. Pack them into clean glass jars, shaking them down lightly. Cover them with a syrup composed of two parts of sugar to one of water. Put on the rubbers and tops of the jars, partly screwed on. Pour two cups of water into the bottom of the pressure cooker and set the jars on the rack. Cook for five minutes at ten pounds' pressure. Do not open the petcock of the cooker until the steam gauge has gone down to zero. Then open and remove the jars. When cold, store in a dark place.
